Dr. N. Craig Brackett, III, FACS Attends Miami Breast Cancer Conference

*Myrtle Beach, SC--*N. Craig Brackett, III, MD, FACS, President and Founder of Coastal Carolina Breast Center was among the physicians and surgeons attending the 28th Annual Miami Breast Cancer Conference in Miami, Florida.

This year's conference featured a series of lectures and workshops by international leaders in the field of breast cancer, and provided an opportunity for medical professionals to meet and learn from pioneers of innovative approaches in the subspecialties of surgery, radiation therapy, and systemic medical interventions.

As highlighted throughout the conference, the optimal care of patients with breast cancer is rapidly changing as a result of advances in prevention, screening, and detection, as well as in the primary treatment modalities of surgery, radiation therapy, cytotoxic chemotherapy, and novel biologic therapies.

The Annual Miami Breast Cancer Conference provides a unique opportunity for breast health specialists to learn from, and interact with, leaders in the field of breast cancer in order to increase knowledge, apply new data to practice, and ultimately improve patient outcomes.

Coastal Carolina Breast Center is the area's only practice dedicated solely to breast health and is recognized as a Center of Excellence. Breast specialist, N. Craig Brackett, III, MD, FACS, joined in practice by Angela M. Mislowsky, MD, has treated an estimated 25,000 patients during the last fifteen years. Their offices are located at the Imaging Center at Waccamaw Medical Park in Murrells Inlet and the Frances B. Ford Cancer Center in Georgetown, South Carolina. Physician referrals are not required. For more information or to make an appointment, call (843) 651-3308 or visit them on the web at www.coastalbreastcenter.com
